SUMMARY

Hi, I'm Sarthak Khurana — a passionate and driven student at Chitkara University, constantly exploring the intersection of technology, innovation, and real-world problem-solving. With a strong foundation in full-stack development and artificial intelligence, I thrive on building impactful solutions that challenge the norm and improve lives.

I've worked on a variety of projects including:

Prep Gini – an AI-powered interview preparation platform featuring mock interviews, resume analysis, facial expression recognition using YOLOv8, and AI avatars for realistic assessments.

NeuroHire – a smart hiring system that integrates LinkedIn data, AI-driven training modules, and mock interviews to streamline talent acquisition for companies of all sizes.

Fraudulent Transaction Detector for E-Commerce – a hackathon project combining behavioral analysis, geo-location checks, and device fingerprinting to detect suspicious transactions using Python, FastAPI, and MongoDB.

Interactive Flowchart Generator – a React-based web tool to help entrepreneurs visualize business processes interactively.

Fitness Tracker & Music App – engaging apps focused on user experience and seamless backend/frontend integration.

My toolkit includes React, Tailwind CSS, Shadcn/UI, FastAPI, Flask, Scikit-learn, MongoDB, YOLOv8, and modern authentication and deployment platforms like Clerk and Vercel.

I love taking on new challenges, collaborating with like-minded people, and learning something new every day. Whether it's a hackathon, a personal project, or an open-source contribution, I'm always eager to grow and push my boundaries.

EXPERIENCE

Senior Manager AIESEC in India	12/2025 - Present
Junior Manager AIESEC in Chandigarh AIESEC in India	08/2025 - 12/2025 Chandigarh, India
Campus Ambassador GSSoC JEC Jabalpur	06/2025 - 11/2025 India

EDUCATION

B.E. CSE With Specialization In Artificial Intelligence and Future Technology, Computer Engineering Chitkara University	01/2024 - 12/2028
Bachelor of Engineering - BE, Computer Science Chitkara University, Punjab	01/2024 - 12/2028
Bachelor of Engineering - BE, Artificial Intelligence Kalvium	01/2024 - 12/2028

KEY ACHIEVEMENTS

- Growth In User Acquisition**
Increased user acquisition by 40% within six months through targeted digital campaigns.
- Coding Competition Victory**
Led team to rank 1st among 50 teams in national coding competition.
- Fraud Reduction Achievement**
Reduced transaction fraud by 25% using AI algorithms in project.
- Performance Optimization Success**
Improved application performance by 30% through optimization of code and database queries.
